Subpart B—Standards for Assessing Performance

SOURCE: 60 FR 22201, May 4, 1995, unless otherwise noted.

§ 345.21 Performance tests, standards, and ratings, in general.

(a) *Performance tests and standards*. The FDIC assesses the CRA performance of a bank in an examination as follows:

(1) *Lending, investment, and service tests*. The FDIC applies the lending, investment, and service tests, as provided in §§ 345.22 through 345.24, in evaluating the performance of a bank, except as provided in paragraphs (a)(2), (a)(3), and (a)(4) of this section.

(2) *Community development test for wholesale or limited purpose banks*. The FDIC applies the community development test for a wholesale or limited purpose bank, as provided in § 345.25, except as provided in paragraph (a)(4) of this section.

(3) *Small bank performance standards*. The FDIC applies the small bank performance standards as provided in § 345.26 in evaluating the performance of a small bank or a bank that was a small bank during the prior calendar year, unless the bank elects to be assessed as provided in paragraphs (a)(1), (a)(2), or (a)(4) of this section. The bank may elect to be assessed as provided in paragraph (a)(1) of this section only if it collects and reports the data required for other banks under § 345.42.

(4) *Strategic plan*. The FDIC evaluates the performance of a bank under a strategic plan if the bank submits, and the FDIC approves, a strategic plan as provided in § 345.27.

(b) *Performance context*. The FDIC applies the tests and standards in paragraph (a) of this section and also considers whether to approve a proposed strategic plan in the context of:

(1) Demographic data on median income levels, distribution of household

income, nature of housing stock, housing costs, and other relevant data pertaining to a bank's assessment area(s);

(2) Any information about lending, investment, and service opportunities in the bank's assessment area(s) maintained by the bank or obtained from community organizations, state, local, and tribal governments, economic development agencies, or other sources;

(3) The bank's product offerings and business strategy as determined from data provided by the bank;

(4) Institutional capacity and constraints, including the size and financial condition of the bank, the economic climate (national, regional, and local), safety and soundness limitations, and any other factors that significantly affect the bank's ability to provide lending, investments, or services in its assessment area(s);

(5) The bank's past performance and the performance of similarly situated lenders;

(6) The bank's public file, as described in § 345.43, and any written comments about the bank's CRA performance submitted to the bank or the FDIC; and

(7) Any other information deemed relevant by the FDIC.

(c) *Assigned ratings.* The FDIC assigns to a bank one of the following four ratings pursuant to § 345.28 and Appendix A of this part: "outstanding"; "satisfactory"; "needs to improve"; or "substantial noncompliance" as provided in 12 U.S.C. 2906(b)(2). The rating assigned by the FDIC reflects the bank's record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank.

(d) *Safe and sound operations.* This part and the CRA do not require a bank to make loans or investments or to provide services that are inconsistent with safe and sound operations. To the contrary, the FDIC anticipates banks can meet the standards of this part with safe and sound loans, investments, and services on which the banks expect to make a profit. Banks are permitted and encouraged to develop and apply flexible underwriting standards for loans that benefit low- or moderate-income geographies or individuals,

only if consistent with safe and sound operations.

§ 345.22 Lending test.

(a) *Scope of test.* (1) The lending test evaluates a bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the FDIC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, home equity, other secured, and other unsecured loans. In addition, at a bank's option, the FDIC will evaluate one or more categories of consumer lending, if the bank has collected and maintained, as required in § 345.42(c)(1), the data for each category that the bank elects to have the FDIC evaluate.

(2) The FDIC considers originations and purchases of loans. The FDIC will also consider any other loan data the bank may choose to provide, including data on loans outstanding, commitments and letters of credit.

(3) A bank may ask the FDIC to consider loans originated or purchased by consortia in which the bank participates or by third parties in which the bank has invested only if the loans meet the definition of community development loans and only in accordance with paragraph (d) of this section. The FDIC will not consider these loans under any criterion of the lending test except the community development lending criterion.

(b) *Performance criteria.* The FDIC evaluates a bank's lending performance pursuant to the following criteria:

(1) *Lending activity.* The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area(s);

(2) *Geographic distribution.* The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:

(i) The proportion of the bank's lending in the bank's assessment area(s);
